## WILL PUSH THE CONCLUSIONS

Peace Agents Will Lose No Time in Getting Down to Business.

Japan Wants Enough Indemnity to Cover Cost of War to Date.

Washington, July 27.—Whether there is to be peace in the far East or a continuance of the war will be practically decided at the first business meeting of the Washington conference, which will convene at the navy-yard, Portsmouth, N. H., about Aug. 5. Baron Komura will on that occasion communicate to M. Witte the essentials of Japan's peace terms for further negotiations. This, it is declared, will not be done in a spirit of defiance—indeed, there are many evidences in the possession of the neutral governments that Japan is coming to the Washington conference not imbued with a desire to humiliate Russia, but only to exact terms which will insure a lasting peace in the far East, and which will in a measure compensate Japan for the financial losses in the present conflict.

Throughout the preliminary negotiations, however, Japan has made it clear at Washington that she wished to avoid unnecessary tedious negotiations. "We are not going to the conference to write into the law of nations a new chapter," said a high Japanese official recently. For this reason the Japanese plenipotentiaries will adopt the program of at once laying on the conference table those terms, the acceptance of which without modification they are instructed to insist upon as a basis for further negotiations.

Although guarding with great care the official statement of her terms, Japan has not kept from several friendly governments the general character of these terms. Official Washington has been enabled to form with certain limits a general idea of their character.

It is known that Japan will demand an indemnity that will approximately cover the cost of the war to date. This was communicated to Russia early in the preliminary negotiations. The amount is still a secret, but it is based upon the most careful estimates of the cost of the war and will be accompanied by a more or less detailed statement showing the method by which the final figures were computed. It will not fall far short of one billion dollars, according to advices reaching here from well-informed sources. Besides the indemnity, it is believed, Japan's other essentials to the continuance of the negotiations are the cessation to Japan of Saghalien, of the Liaotung peninsula, and of the railway as far as Harbin; the recognition of Japan's predominance in influence in Korea and the return of Manchuria to China.

If the Russian plenipotentiaries are prepared to accept these essentials, the officials here are confident that the bases will be laid for negotiations sure to lead to the signing of the treaty of Washington, bringing peace in the far East.

A young martin fell from its nest in the top of the arc lamp at the corner of Second and Morgan streets about 9:30 o'clock last night, into the glass bowl under the lamp. As it was in danger of being electrocuted at any time, being in such close proximity to the sparking carbon, a number of traveling men at the Windsor attached a piece of hose to the chain holding the lamp, lowered it and rescued the bird. It was almost exhausted.

## LENDS ENCHANTMENT

Newspapers, Appreciated at Home, are Treasured When Read Among Strangers.

While a well-conducted newspaper is appreciated in the vicinity where it is published, the full extent of such appreciation is felt by those who leave home. That distance lends enchantment is proved by the many words of praise found in letters which contain renewals of subscriptions to the Republican.

When a man pulls up stakes and shakes the dust from his shoes from the old home to seek pastures new, he naturally has a hankering to know what is going on at the place he has left behind, who is getting married, the business changes, the improvements and the many other items of local interest which a well conducted paper furnishes.

A newspaper forms an important connecting link between the home left behind and the present abode, and when the time comes for a visit home, the persons who have kept posted on the old home take keen enjoyment in looking up the changes of which they have been kept cognizant.

## HER HIP BONE IS FRACTURED

Mrs. E. J. Davis Falls at Home of Her Daughter on West Second Street.

Mrs. E. J. Davis, mother of Mrs. Lee Feaster, residing on West Second street, fell about 8 o'clock last evening while walking on the lawn at her daughter's home, and fractured her left hip bone. The injury is very painful and serious for the reason that Mrs. Davis is 81 years of age. Dr. D. D. VanOsdel was called and reduced the fracture.

## THE EXPLORER SAILED AWAY

Commander Peary Leaves North Sidney at 2 p. m. Wednesday.

North Sydney, C. B., July 27.—The Arctic steamer Roosevelt, bearing Commander Robert E. Peary's latest expedition, swung clear of the terminal wharf and headed northward on her voyage of discovery toward the North Pole, at precisely 2 o'clock yesterday afternoon. As the steamer left the wharf an immense crowd which had gathered to witness her departure, burst into cheers, which were mingled with the whistles of the steamers, and the demonstration continued as the steamer passed down the harbor. The city had been gallantly decorated for the occasion.

Commander Peary, in speaking of the expedition shortly before his departure, showed firm confidence that the outcome would be successful, in which case he intends to return in September, 1906. Mrs. Peary and her daughter, who have been with Commander Peary in this city pending his departure, left for New York at once.

Work has begun on the stone foundation of the new United Presbyterian church.

The concrete foundation for the Masonic temple is completed, and other work on the building will begin as soon as the material arrives.

## WHY ACTION IS DELAYED

The Investigation of Alleged Unfair Freight Rates in Indiana.

Formal Complaint Must be Made Before Commission Has Power to Investigate.

Local manufacturers who have been disappointed because the Indiana rail road commission has not originated any suit or any investigation regarding freight rates, have been informed through the Shippers' Association that the law provides for such inquiries and investigations only after a complaint has been filed by some individual, association or community injuriously affected by existing conditions.

"The railroad commission in its power and duties partakes much of the nature of a court," said one of the big shippers who was interested in the passage of the bill, creating the commission. "The General Assembly in creating the commission and giving it the power it has, seems to have proceeded on the theory that the commission should be an impartial tribunal, somewhat in the nature of a court, but with sufficient executive and legislative power to enable it not only to determine what rate, rule, or regulation is improper, but also to substitute another therefor. Acting upon this theory, it would seem that the commission would not be any more justified in manifesting interest in the institution of proceedings and inquiries than a court would be in order to have a full docket."

The point is made, therefore, that in order that the attention of the commission, the members of which sit every day, may be called to any particular point, it is absolutely necessary that formal charges be filed with the commission and that if any community or any class of shippers thinks that it is being discriminated against, all that must be done is to file a formal complaint. This complaint filed, the commission will then take cognizance of the case, have the hearings provided for by law, if the latter cannot be settled informally, and have the question judicially settled. A number of contested cases are now pending before the commission, the settlement of which will affect the entire shipping public.

## SEIZE LIGHTHOUSE

St. Petersburg, July 27.—A dispatch from Russian headquarters at Godaya-dard, Manchuria, says that on July 24 two Japanese torpedo boat destroyers approached the port of Dekastrias, Siberia, and took bearings of the isthmus on which the lighthouse stands, and that the Japanese subsequently landed and seized the lighthouse and hoisted the Japanese flag.

Strikers Threaten Violence. Lodz, Russian Poland, July 27.—Two thousand five hundred men in the Geyers cotton mill struck because their foreman was discharged. The strikers are threatening to destroy the mill. They made a demonstration but were dispersed by Cossacks, who arrested 200.

CHICAGO MUNICIPALERS Will Have to Fight Their Theories in Federal Court.

Chicago, July 27.—The Chicago City Railway company has filed a bill in the United States circuit court for an injunction to restrain the city of Chicago from interfering with any of the company's lines.

The municipal ownership ordinance passed by the city council last March is attacked as being unconstitutional, and the court is asked to grant relief from any prejudicial act of the city.

The court is informed in the bill that the city railway now has possession and control of 119 lines within the corporate bounds of the city on which the franchises run until 1958. It is expected that the 39-year act so often considered by the courts will be an important part in the argument in the present case.

## HEALTH RULES

For Rushville People to Follow During the Hot Summer Months.

Don't worry. Keep clean—inside and out. Frequent baths, two a day, in such weather as this, will refresh, strengthen and keep the outside clean. Don't eat much and eat carefully and slowly.

Do not drink much—alcoholic drinks and malt drinks have a bad effect on the system in such weather as this, so the less a person drinks of either, particularly during the day time, the better.

A little fruit is good, but I advise against eating much fruit.

Do not try to do all next winter's work this month or next month. There will be more months following and months better adapted to hard mental and physical work.

Don't watch the thermometer or talk about the weather.

Again don't worry.

## LOCAL TELEPHONE TRADE LARGER

Statistics Show Large Increase in Local Company's Telephone Accounts.

Oliver M. Dale, business manager of the Rushville Co-Operative Telephone company, stated to a representative of the Daily Republican this morning, that the company's business was on a steady growth and increase.

The toll collections, and rents, especially, are growing, and the figures show that the increase in these departments have grown \$200 larger for the month of June, 1905, over the same month in 1904. The toll collections on phone rents and toll dues for June of last year amounted to \$1211.29, while for the same month of the present year they were \$1411.70.

These figures show a marked and steady increase in the amount of money taken in by the company, and if business keeps up for the remaining months as it did in June, the increase for the year will be \$2000 larger than last year.

The telephone company has also made extensive improvements this year, and thus the public has been given much better service. Other improvements which will be of still greater use are now under consideration, and it is thought, that our city will soon have one of the best equipped telephone systems in the State.

## PINEY GOES TO CITY BASTILE

Walter Mathews, Gets Drunk, Wants to Fight and Finally Lands in Jail.

Walter Matthews, colored, commonly known as "Piney," was arrested last evening by Officer Gordon on the charge of public intoxication. Piney is a cook at the county poor farm, and he came to town last night and got in a badly intoxicated condition. He went into the lively stable belonging to Ed Spradling, and began talking in a very vile and profane manner. He was asked several times to cease his disturbance by the proprietor, and he finally went so far as to try to get a fight out of Mr. Spradling. He certainly got what he was looking for, and besides this he was placed in jail on the charge named above.

It is said that Matthews is very peaceful, while sober, but in a drunk condition his friends say that he is extremely quarrelsome.

## MANY CASES ARE REPORTED

Standard Oil Vessels are Accused of Engaging in Smuggling Trade.

Custom House Authorities Have Taken the Matter Up for Thorough Investigation.

New York, July 27.—The custom house authorities intend to take active measures to stop the extensive smuggling of tobacco at Bayonne, N. J., where on Saturday twenty-seven bales of Sumatra tobacco, valued at about \$2,000 were seized in the house of a woman who is said to be the agent of a gang of smugglers. The vessel from which the tobacco came is the steamer Diamant of the Standard Oil company. Under the revised United States statutes the collector may institute proceedings for a fine equal to the appraised value against the master of any vessel, together with a penalty of \$400, for having landed smuggled goods in port, and if the master be not responsible the collector may proceed against the owners of the vessel.

The collector intends to put the case in the hands of the United States district attorney at Bayonne to prosecute it to the fullest extent. There have been twenty cases of alleged smuggling lately at Bayonne, and in every instance the vessels belonged to the Standard Oil company. The condition of affairs was called to the attention of the Standard Oil officials and they promised to investigate.

## LARGE NUMBER OF BIRTHS REPORTED

County Health Officer Green's Report for the Second Quarter.

County Health Officer Frank Green has about completed his report for the quarter, ending June 30th, 1905.

During April, May and June, there were 76 births, 33 being males and 43 females. There was one pair of twins born and one illegitimate birth.

Out of the 76 births there was only one negro birth reported.

The total number of contagious diseases was three, two cases of scarlet fever, and one of typhoid fever. This is a very remarkable record for three months.

During the quarter there were twenty-three marriages, one couple being colored people.

The death returns are not yet in.

## LOCALS LOSE SECOND GAME

Frankfort Wins by Score of 8 to 1—Locals Cannot Hit Crandall.

The local base ball team met its third consecutive defeat, yesterday, when they lost to Frankfort by a score of 8 to 1.

Our team was not able to hit Crandall, and the one run that we did make was scored on a blocked ball. The Frankfort team was able to score almost at will, and they had the locals out-classed from the start.

It was a batting contest from start to finish, as there were only three errors made on each side.

Score by innings:  
Rushville 0 0 0 0 0 1 0 0—1 3 2  
Frankfort 0 0 0 4 0 2 2 x—8 8 1

## ARE VERY SOLID

Only Two Failures in Indiana State Banks in Ten Years.

E. M. Hinshaw, State bank examiner, says that statistics for the last ten years show that only two State banks have failed in that time, and not a single one in the last twelve months. "As nearly as I can figure out, the total loss to depositors in the last ten years has been \$75,000," said Mr. Hinshaw, recently, "although at present the deposits aggregate \$30,000,000 in the 183 State banks." On the whole, Mr. Hinshaw thought that the record of the State banks was one that could be pointed to with pride.

"The State auditor has these banks directly under his control," said Mr. Hinshaw. "The frequent examinations, the fact that these banks are in close touch with one another, and that whenever any discrepancy is noted they can be reached readily by the State auditor, go a long way toward establishing their stability. If anything seems to be wrong, the auditor at once summons the directors before him, and the matter is cleared up."

## CROSS'S CHANGES ARE VERY SLIM

Still Makes No Charges Against His Assailant—No Arrests Have Been Made.

Clifford Cross, of Crawfordsville, the young man who was dismembered during an affray Saturday night, near Knightstown, is still in a very critical condition and the chances for his recovery are said to be smaller than they were on Monday. He now makes the claim that he does not know who stabbed him. He will say nothing regarding the affair and the inside facts concerning it are still a mystery.

Henry Riley, who was with young Cross at the time, refuses to talk. He, like his companion, is holding his tongue and saying nothing. The Knightstown authorities have made no progress in their investigation of the affray. It has been stated on seemingly good authority, that the officers have discovered who used the knife, but that no arrest has been made and probably will not, unless Sheriff Christopher, of Henry county, takes a hand in the business.

A man, named Ricks, living at Greensboro, whom it is believed knows something about the crime, has been apprehended at Muncie.

Two freight cars are now being run daily over the Shelbyville division of the I. & C. and like service will be put on between Rushville and Indianapolis just as soon as the cars are ready.

The Indiana Horticultural Society will hold its forty-fourth mid-summer meeting, August 9th and 10th on the State Forestry Reservation at Henryville, Clarke county. A very interesting program has been arranged for the meeting.

A Connersville girl was caught kissing her sweetheart Tuesday night, and her mother took her to task about her unseemly conduct. The girl was an Endeavorer, equal to the occasion, and thus responded: "Whatsoever you would that men should do unto you, do ye even so unto them."

Potato stories are now coming in as well as those about sunflowers. One gentleman claims to have dug twelve bushels from one hill. Another simply opens a hill, cuts off enough potato for dinner, then closes the hill and lets the potato keep on growing. A farmer up in Jackson township who had his potato patch on a side hill had a serious mishap when he dug them. A large potato rolled down the hill-side, crashed into a barn and killed a valuable horse. Another opened a hill of potatoes and five bushels of the tubers ran out before he could close the hill.

## DOG DAYS ARE HERE

Mistaken Opinion of Many That It is a Time When Dogs Go Mad.

"Dog Days" are Named From the Star "Sirius" Meaning "Dog."

The dog days are here. That period of the year when men and dogs parade the streets with tongues lolling at full length is at hand. Those delightful times when the earth sizzles with sickening sound. The weather man says so, and the weatherman knows.

Every normal person remembers a time when life seemed shorn of all its romance and all its beauty. Then existence seemed but a dreary monotonous round of drudgery. It was when the awful fact was known that there was no Santa Clause. So it is with dog days. Generation after generation of humanity have died happy in the belief that dog days were when dogs went mad. Now, however, truer science tells us that it is not the faithful friend to man, but only a simple prosaic star, Sirius, or alpha canis majoris, which gives its name to the sultry days we all dislike so cordially.

The observing ancients discovered, after careful and due deliberation, that the smeltering summer days came when the star Sirius was in its ascendancy, and they named the days after the star, "Dog." For centuries the names have refused to be separated from the days. Most people have thought that dog days were here when dogs went mad. And in order to help out the popular illusion some dogs have always been found considerable enough to contract hydrophobia during that period.

Now, however, weary mortals know that dog days are named from a star, and not from the fact that dogs become frenzied or pant unduly or do anything else unusual.

## BURGLAR CAUGHT IN THE VERY ACT

A. C. Hill, of Greensburg, Opens Fire and Wounds Man in the Hip.

The Greensburg Graphic this morning says: A. C. Hill, the veteran shoe drummer and fast auto driver is the hero of the hour. He found a burglar in his home and shot him.

Wednesday morning at about 3:30 Mr. Hill was awakened from his slumbers by a sound that very much resembled a burglar moving around. He listened and in a few moments he saw the form of a man leaning over a trunk. He demanded to know what was wanted and as the man failed to answer he jerked his revolver out from under his pillow and blazed away, shooting the intruder in the right hip.

The fellow took to his heels and got into his rig and started for home. Hill notified the officers and the burglar was captured and proved to be Sherman Magee, a farmer who resides about four miles out of the city. The fellow had been drinking heavily, but gave no excuse for his actions. He will not be prosecuted as Mr. Hill has all he wanted, "A good shot at him." Magee is at his home where he refuses to talk of the occurrences.

The Kennard team proved a big surprise here this afternoon and held Rushville 4 to 2. Joe Herold scored the winning runs with a timely hit in the seventh inning.

Score: 1 2 3 4 5 6 7 8 9—R H E  
Rushville 1 0 0 0 0 2 1 x—4 7 3  
Kennard 2 0 0 0 0 0 0—2 7 1  
Batteries, Wagner and Hiatt, Olden and Cooper; struck out by Wagner 8, by Olden 6; time, 1:15; umpire, Phares; attendance, 175.

### HANLY IS COMMENDED

Sensational Sermon Simply Reacted  
Against Its Author.

Indianapolis, July 27.—Since the attack made upon him Sunday night by the Rev. W. A. Shaw, pastor of the Trinity Congregational church of this city, and national secretary of the Anti-Cigarette League, Governor Hanly has been receiving communications from church men and church societies all over the state, praising him for his efforts toward law enforcement and criticizing the pastor who called him a coward. The Rev. Mr. Shaw found fault with the governor because he had not enforced the anti-cigarette law or done anything toward apprehending O. A. Baker, the alleged bribe giver, exposed by Representative Baker in the last legislature. Resolutions of support and commendatory communications of all kinds have been received by Governor Hanly in numbers since the sermon was given to the public.

The first public hearing granted by the Indiana Railroad commission since its creation by the last legislature will be held on Aug. 10, when representatives of the Romona Oolitic Stone Co., with quarries in Monroe county, will plead for a reduction in coal carrying rates. The contention involves the

UNION B. HUNT.

[Head of the Indiana Railway Commission] Monon and Vandalia companies. In the bill of complaint it is stated that a rate of 95 cents a ton is paid. Of this the Vandalia receives 35 cents for carrying the coal seventy miles and the Monon receives 60 cents for carrying it but five miles. The stone company asks for a reduction of 15 cents to the ton. It is expected that some interesting information relative to the rate agreements between railroads will be gleaned at the hearing.

It is thought that the appointment by Governor Hanly of Thomas Bagot to the police board at Anderson as the Democratic member to succeed Frank P. Foster, resigned, will do much to settle troubled conditions in that city. Mr. Bagot is heartily in accord with Governor Hanly's law enforcement policy and has promised, it is said, to keep the "lid" screwed down tight. As Mr. Bagot is a personal friend of both the other commissioners, it is thought that the friction which existed in the board will now be entirely eliminated. Governor Hanly is still scouring the woods for a good man to appoint to the Marion police board to succeed L. C. Lillard, the Democratic member.

### Flourishing New Industry.

Indianapolis, July 27.—According to Daniel H. McAbee, chief factory inspector, the pearl button industry has assumed considerable proportions in the state. "In the three factories in the state that take the mussel shells

and make the so-called pearl buttons, about 170 men are now employed," says Mr. McAbee. "This does not count the hundreds of people who spend their time in gathering the mussels." Mr. McAbee says that recently 600 tons of mussels were taken from one bed.

**Obstructionists Brought to Time.**  
London, July 27.—John Redmond, the Nationalist leader, and his followers continued their obstructionist tactics of blocking private bills in the house of commons yesterday, but as the result of remonstrances which have reached them from all parts of the country representing the injustice which such tactics inflict on a large body of workmen, they have decided to withdraw all further opposition to such bills.

**Setting Wheels in Motion.**

Y., July 27.—State Senator William Armstrong has sent out announcements to his senatorial and assembly associates who are to serve on the joint legislative committee which is to investigate the life insurance business in this state, that the committee will meet at Albany for organization next Tuesday.

New York, July 27.—At a session of the directors of the Equitable Life Assurance Society, Paul Morton was elected president of the society, retaining, it is understood, the chairmanship as well.

**Two Young Girls Drowned.**  
Lacyne, Kan., July 27.—Mattie and Grace Wigner, sisters, aged fourteen and sixteen years respectively, were drowned while attempting to ford a creek west of here.

**Fire Chasing a Fugitive.**  
Plainfield, N. J., July 27.—Baffled by treacherous swamps and thick woods, a posse of farmers and police has surrounded Charles Long, a negro, accused of murdering Matthew Cunningham of Trenton, N. J. They set fire to more than fifteen acres of shrubs and bushes on the outskirts of the swamp in an effort to drive the man out of his hiding place. A brisk wind blowing over the swamp from the direction in which the fire was started took the smoke through the woods, and it is not thought that Long will be able to stay where he is and live.

**Took to the Woods.**  
Portland, Ore., July 27.—Ernest Starr, nephew of Congressman William Starr and an important government witness in the Williamson-Gessner-Biggs trial, is missing. It is stated that last Thursday when Starr found that the Williamson jury was likely to disagree he left Portland, going to Eugene, Ore., where he struck out into the mountains. The secret service agents, assisted by local officers, are following in pursuit.

### PRESENCE IS RESENTED

Kansas Agitator Got Into the City  
Convention and Created a Row  
and a Rumpus.

When She Started to Address the  
Convention the Delegates Left  
the Hall.

Indianapolis, July 27.—Mrs. Carrie Nation's part in helping name a prohibition city ticket is tending to disrupt the party here. Mrs. Nation was invited to attend the convention by Edward Clark, the editor of the Phalanx, the party organ. Her presence was resented by Jesse Tindall, city chairman, and Wilson Doan, presiding officer. When she arose and started to address the convention many of the delegates left the hall. The party leaders are now quibbling among themselves over the incident. Everyone who favors Governor Hanly's ideas of law enforcement were invited to participate in the convention proceedings and help name the ticket. A goodly crowd attended, but the work of nominating candidates was cut and dried, the nominees having been selected by the leaders before hand. George Hitz, who led the party in the municipal campaign two years ago, was nominated for mayor without opposition.

### A SHAKING UP

For the Standard Oil Company in Indiana Is Promised.

Indianapolis, July 27.—It is generally understood now that the presence in Indiana of Frank J. Pool, special agent of the bureau of corporations, department of commerce and labor, is for the purpose of investigating the business methods of the Standard Oil company in the state. Mr. Pool arrived in this city and registered at the Claypool hotel on Tuesday. While declining to discuss his mission, he tacitly admitted that he might investigate the oil situation during his stay here.

With Mr. Pool's departure yesterday for the oil region, it became bruited about that there is trouble galore ahead for the Standard company in Indiana. It was Mr. Pool, acting as a special agent for James R. Garfield, the head of the bureau of corporations, who stirred up the oil trouble in Kansas. He has also made special investigations in various Eastern states, where the Standard company owns the bulk of the oil properties.

Several weeks ago information was received by the bureau of corporations at Washington that many oil companies in the Indiana field were operating under fictitious names, and that in reality these companies are dominated by the Standard crowd. With this information was the complaint that "discrimination on the part of certain railroads in favor of these and other companies allied with the Standard Oil is flagrant."

### Churches Get Together.

### Sets Up Novel Defense.

Chicago, July 27.—John Mueller, charged with killing his wife and child, makes the novel plea of epileptic somnambulism. Jurors in the case have been selected. Mueller declares there was no motive; that he slew his wife in his sleep and that his actions were due to a blow on the head received during a labor riot two years ago. He is conducting his own case. Mueller killed his wife and child by shooting them and then hacking them with an ax.

### Mutiny Quickly Subsidy.

Panama, July 27.—A mutiny took place among the police force here yesterday, but it was quelled almost at the beginning by Santiago De La Guardia, secretary of war, who faced the mutineers with a drawn revolver and, backed by the officers of the force, brought them to submission. The principal leaders were severely chastised by the secretary and the other mutineers were placed in irons. Politics had nothing to do with the mutiny.

At the palace the imperial princes and princesses, attended by the royal personages of the emperor's household, the military and naval staffs, members of the cabinet and council of statesmen, assisted in the reception of Secretary Taft and his party.

## COUNTY NEWS

### Coon's Corner.

Wheat threshing is progressing nicely.

In most quarrels there is fault on both sides.

O. P. Freeman and wife have given up their trip to Portland, Oregon.

Pride may climb high, but its fall will be the greater.

Rev. O. C. Wilson and wife, of Labanon, who have been visiting relatives here for the past two weeks, returned home Thursday.

Quite a number of elegant monuments have been erected at Hopewell cemetery, the best one being at Smith Scott's grave.

Phil Wilk has bought Philander Lefforge's stone crusher. Mr. Lefforge bought it when it was new and used it only one season.

A gentleman from Gings Station was in this neighborhood one day last week to look at 50 acres of real estate which lies in the southeast corner of this township (Richland). County Auditor Winship has the selling of it.

A few years ago the traction engine was considered the biggest scarecrow that traveled on the public highway to frighten a horse, but the men in charge of them always had enough sense and respect to stop when they saw a horse became frightened. But this is far from being the case with a few auto drivers who have recently passed through this section of the country. One had just as well throw up your hand at a loaded freight train going down grade at the rate of 60

miles an hour as to beckon to one of these auto drivers to bring his machine to a halt. If this continues they will soon run up against the right man for the right place.

Did you ever borrow your neighbor's county paper and after failing to return it, have him to call for it and tell you that there was a certain article in the issue which you borrowed that he wished to preserve and after ransacking the house searching for it were obliged to tell him that some of the children had torn it up. Didn't you regret it? Do you know that the man who depends upon his neighbor for his paper is always from 10 to 12 hours behind time, because you certainly would not think of asking your neighbor for his paper until you were certain he was through with it. Suppose there should be an advertisement in the paper which would interest you.

Your neighbor, who is a subscriber, will have the bargain gobbled up before you hear of it. Do you know that you now have advantages that only a short time ago you did not have in the way of free delivery and that you are one of the many who favored the same? And now, with these advantages don't you think it would be just as cheap and much less trouble to step out just in front of your residence and get your paper than it would be to walk ten times the distance to borrow your neighbors, and last but not least don't you think you ought to show Uncle Sam that you appreciate the arrival of his little white wagon?

Shortly before ten o'clock Sunday morning lightning struck a barn belonging to James Wright, two miles east of Moscow. The barn burned to the ground with all the farm implements except a binder, mower and a wagon. The horses were removed to a place of safety. James Wright and Ray Owen were in the barn and were severely shocked. A dog standing by their side was instantly killed. It was a close call for the men.

## Richer Blood.

If you are pale, and do not feel at all like eating or working, take BEHER'S BLOOD PURIFIER.

It removes impurities from the blood and causes the liver to supply the blood with a richer quality of nutrition, making redder and more vigorous corpuscles in the blood. Wonderfully strengthening to all worked-down tired and weak people.

Cambridge City, Tribune: Connersville scored a shut out in the ball game with Rushville Sunday, and had three tallies to their credit, made in the fifth inning. There was a large crowd present and the game was well conducted. When Connersville visits Rushville it will be a little difficult to maintain the same score.

Shelbyville Jeffersonian: The people of Rushville are going "wild over a street show which is exhibiting in that city. It is said the entire population appears on the streets to witness the imposing spectacle. The cause of the excitement is a monkey and two men with a grind organ. Greensburg will probably offer these showmen a handsome sum to awaken some enthusiasm there.

Shelbyville Jeffersonian: The dead negro woman, who lies in the Edwards Hageman morgue in this city, still remains unidentified. She was killed near Brookfield last Monday night by a Big Four train. The large number of people who have viewed the body have failed to recognize the woman. It is probable that her home is in Indiana, but what she was doing on the tracks that late at night is a mystery which will doubtless never be solved.

He describes the scene as being terrible. About sixty men were killed. Mr. Rea stood it for a while, but the sight made him sick and he was forced to leave. Men were crying to be killed and the decks of the vessel were fairly dyed in blood. One sailor who was in the explosion, and who escaped unhurt, had three ribs broken while on the battleship Maine when it was blown up in 1898.

## SUNDAY SCHOOL DEPARTMENT

THE S. S.'s FORWARD MOVEMENT.

Contact with character, rather than contact with a curriculum; therein lies the hope of the Sunday school. It was for that saving truth that the Eleventh International Sunday School convention at Toronto unhesitatingly stood. Because that was the dominant note, there is reason to count the Toronto convention great in its accomplishment and its outlook. This estimate is likely to be abundantly confirmed as the years pass on. The theme "challenged attention and compelled recognition on before the convention itself had come to a close. And when, at the last session, after four days' program of address, conference and business that gave continued emphasis to this fundamental principle, the committee on resolutions presented its brief report, the convention put its unanimous seal of approval upon the following formal declaration:

In view of our conviction that the teacher is the heart of the Sunday school situation, and that the training and equipment of the teacher is of more momentous importance to the progress and success of the cause for which this convention stands than any other matter with which we have had to deal, not excepting such matters as organization, architecture, grading, or even the lesson system itself. We heartily commend the growing attention which is being given to the systematic training of the teacher, and the action of the executive committee in creating and appointing an international teacher training secretary, and we cordially endorse every proper step that is being taken by our committee on education and our teacher training secretary to arouse widespread interest in the need of better training and to disseminate information as to how better teaching can be attained.

Mrs. H. Rabb and children, of Mays, are spending July and August at Winona Lake. She has charge of the "Rube Cottage," which is pleasantly located opposite the auditorium. Persons going from Rush county can secure rooms of her. Rev. Rabb will spend his vacation there.

Rev. Proctor preached at Manilla last Sunday morning on the text, "The Righteous Shall Flourish like the Palm Tree," drawing from the palm tree many very striking illustrations. He preached at Pleasant Ridge in the afternoon and again at Manilla at night, returning home in Arlington after the night service, making a drive of 25 miles and speaking three times, which was a very hard day's work.

We visited the Christian Sunday school at Manilla in the morning. A heavy rain kept many from attending, but the interest is good, and they are doing good work. We were delightfully entertained at the home of Thos. K. Mail. We visited the M. E. Sunday school in the afternoon. The attendance was 59. Mr. C. C. Cotton is superintendent, and he always has his work well in hand.

## What Makes Collars Crack?

The cracking of the seam of double fold and wing point collars is caused by the collar being folded when the seam is not evenly dampened.

We have a machine to dampen these seams that does it just exactly right—it's built so it can't do any other way—and the girl who operates it isn't careless, either.
